

# EAPR 2010

14<sup>th</sup> triennial meeting of the Virology Section  
of the European Association for Potato Research (EAPR)  
Hamar, Norway 4<sup>th</sup> – 9<sup>th</sup> July 2010

## • Important dates

- 1<sup>st</sup> February 2010  
Final submission of title  
of presentation
- 1<sup>st</sup> March 2010  
Papers selected by the sci-  
entific committee for oral  
presentations.  
Authors will be notified by  
this date
- 1<sup>st</sup> April 2010  
End of early registration
- 15<sup>th</sup> April 2010  
Final submission  
of full abstracts

It is our pleasure to invite you to the 14<sup>th</sup> triennial meeting of the Virology Section of the European Association of Potato Research (EAPR), which will be held in the land of the beautiful fjords and the endless summer nights. The preliminary programme consists of plenary talks, workshops, oral presentations, poster sessions and scientific excursions. The meeting will cover different aspects of virus research in potatoes, ranging from diagnosis and detection to plant-virus interactions. We encourage scientists, students, growers, seed potato producers and plant health officers to attend this meeting.

Welcome to Norway!

## Scientific topics:

1. Resistance (conventional and transgenic)
2. Plant-virus interactions and evolution
3. Epidemiology and control
4. Emerging and quarantine diseases
5. Diagnostic and detection methods
6. Virus transmission
7. Soil-borne viruses

## • Local organizers

Carl Spetz  
Dag-Ragnar Blystad  
Kari Munthe  
Erling Fløistad
