The 7th Circumpolar Agricultural Conference

"Circumpolar Agricultural and Land Use Resources - Prospects and Perspectives for Productions and Industries"

Alta, Norway, September 6-8, 2010.

CAA (Circumpolar Agriculture Association)

The CAA is a non-governmental organization which aims to be a forum for people involved in Northern Agriculture as farmers, advisors, politicians, and students. To date, six conferences have been held in countries throughout the circumpolar world, including Canada, United States, Norway, Finland, Denmark, Iceland, Sweden and Russia. Topics are broad in scope and involve all northern regions of the world.

The 7th Conference

- Global climate change; challenges and opportunities in Northern Agriculture and Land Use
- Unique qualities in circumpolar food products - a basis for Business development
- Traditional knowledge as a basis for commercial exploitation/business development of our natural resources.
- Rural Tourism Industries in Circumpolar Areas Supporting multifunctional Agriculture
